LOGO APPLICATIONS

These are a handful of theoretical logo applications, showing appropriate use of the brand. As logo applications are developed they will be added to the brand standards guide. **Please review all application proofs with the Director of Communications before printing.**

LETTERHEAD STANDARDS

In order to maintain the brand standard, it is crucial that brand fonts, colors, and other elements be used consistently across all printed correspondence. A letterhead template has been developed for each Ames Community School that sets the formatting style for margins, fonts, colors, line spacing, and other brand elements that should be used when developing a printed document. An example of this template and the business card template is pictured here. These templates should be used for all correspondence intended to be printed on the Ames Community Schools branded letterhead and business cards. Nunito Sans is only to be used in the body copy of the letterhead. This is to ensure consistency as everyone has access to this font.
